

# HOUSEARREST

## WALKTHROUGH

ONLY READ IF YOU ARE READY FOR THE SOLUTION!

You've been grounded and want to climb out of your little brother's window without being spotted. In exchange you have to do four tasks for your brother. If you do them well, he will give you the climbing route that will allow you to climb down unseen.

#### To-do List

Look at the speech bubble in your brother's bedroom. This lists the tasks you have to do for your brother. Each of these tasks gives you a colour.

### Task: Finish my homework for me

Your little brother had already started his homework and coloured in some boxes. Have a good look at these. The numbers for each row show you how this row has to be coloured in. The blue numbers stand for the number of empty boxes and the black numbers for the number of boxes in the row to be coloured in. In the example you see that the first 2 boxes are empty then 1 is coloured in; the next 3 are empty, then 1 is coloured in, and then 2 are empty. Now complete the rest by colouring in the right boxes. When you are finished, you will see the shape of a heart. On the bed you will find a red cushion in the shape of a heart.

	2-1-3-1-2			M	Π.			141	Γ,	
1-1-1	-1-1-1-1-1		Mul	-	W		lhn		Uhr	
. ,	1-3-1-3-1	Mul				M				MI
l X	1-7-1	MI				_				W
18	1-7-1	M								M
3	1-1-5-1-1		144						MA	
HOMEWORK	2-1-3-1-2			Mul				Mil		
>	3-1-1-1-3				W		MA			
포	4-1-4					m				

**Solution: RED** 

#### Task: Tidy away my toys into the box

There's a box of toys in the room. Work out how to put the cut-out pieces neatly into the box. There are a number of different ways of getting the four toys fully into the box. Each of these leaves a yellow toy from the box uncovered

**Solution: YELLOW** 

### Task: Play the skipping game with me

Hop onto the green letter cloth in the room. Follow the instructions on the black note. Begin at 'START' and follow the arrows one step at a time. Write down the letters of each box you land on. Together, these letters make a word. Experiment to see which box you have to jump on first to get a real word.

The only option is the B – then you jump to L, A, C and K.

**Solution: BLACK** 

# HOUSEARREST

#### Task: Solve My RIddle

Your little brother poses the following riddle: 'I'm standing in between two animals: one is catty, the other is all puffed up. What colour shirt am I wearing in the photo?' Look at the big photo on the wall. Find something that could be described as 'catty' and something that is 'all puffed up'. You see a child holding a blown-up balloon animal and one dressed as a cat – a reference to 'catty'. Between them is your little brother, dressed as a superhero. He is wearing a dark blue T-shirt.

**Solution: DARK BLUE** 

### Escape through the window

The tasks you have just performed gave you four different colours (in no particular order): red, yellow, black and dark blue. Now fold the climbing route precisely on the lines marked with these colours. Then position the folded strip with the black arrow exactly on top of the white arrow under the window at the front of the house. The route must not go across the downstairs window! This means there is only one possible solution.

Solution: see the picture.

### Find the code

The folded climbing route is made up of 4 straight sections, each with a number of hands on it. Count the hands on each straight section: there are 4 hands between the red and yellow fold, 6 hands between the yellow and black fold, 2 hands between the black and dark-blue fold, and 4 hands between the dark-blue fold and the ground. This is the escape code!

Enter this code in the app:
